PORTAL TV – THE COMPLETE IPTV SOLUTION

for an IPTV company

OVERVIEW

Based in California, the IPTV company provides Software and Solutions for VOD applications in the Cable, Telco & Enterprise markets. ACL Digital helped the Client with comprehensive IPTV solution along with designing and implementation services.

CHALLENGES

The client envisaged to address the emerging need of service portals for IPTV service providers to select services such as video or music content, Internet services, telephony services, security services & others

Difficulty in of rolling out the product on time while keeping pace with the fast changing technology requirement in the area of rich media delivery

SOLUTION

1. PortalTV offers a variety of rich on-demand and broadcast services such as broadcast TV with interactive programming guides, movies & music-on-demand services and network PVR services
2. The solution includes set-top box and PC based clients that are served by a powerful middleware implemented using Java/J2EE architecture
3. ACL Digital provided end-to-end designing and implementation services for the complete solution and post roll-out support and enhancement services

OUTCOMES

- Complete end-to-end software solution for Set Top boxes
- Reduced time-to-market by accelerated development
- Post release support and enhancement
