

AUTOMATED DATA CONVERSION & MIGRATION LEVERAGING RPA

for a Top 20 Accounting & Consulting Firm

Services: RPA Consulting & Implementation, Intelligent Process Automation

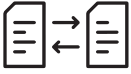

OVERVIEW

The client is one of the top 20 Accounting & Consulting firms. ACL Digital developed an automated solution for the data migration leveraging an RPA foundation.

CHALLENGES

Difficulty in migrating to a new Audit platform

Typical data conversion from old platform (which is closed) to the new platform requires manual processing of each Audit file for thousands of clients

Traditional approach would have required over 5000-man hours

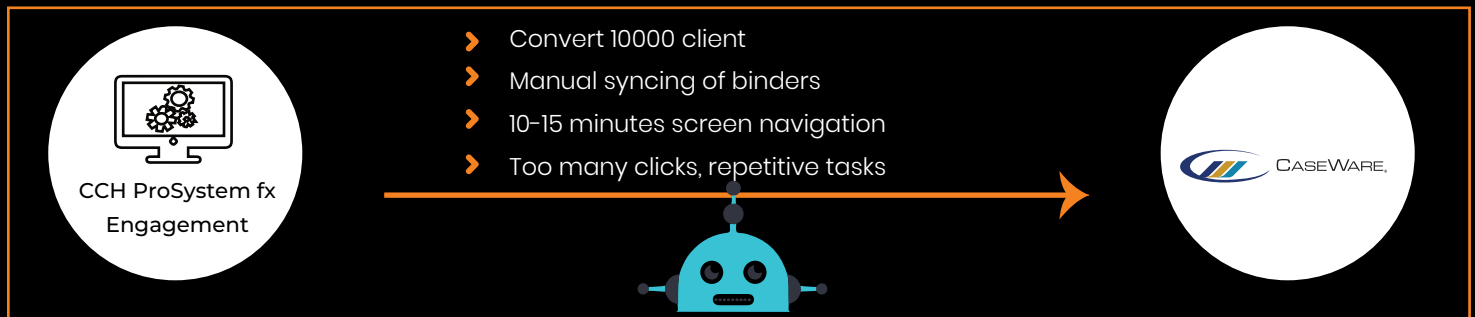

Needed a faster and more robust approach not dependent on human interaction of each audit file and related documentation

SOLUTION

ACL Digital provided solution in the following phases:

- 1 Performed an assessment to validate & design the automation approach
- 2 Performed a POC to evaluate and select the best tool, including Automation Anywhere and Blue Prism
- 3 Implemented a hosted RPA solution to manage the complete data migration lifecycle for system go-live

OUTCOME

Pre RPA-Scenario

- › 50+ FTEs processing audit file and other docs
- › Too many human errors

Post RPA Scenario

- › Automate systems integration
- › FTE reduction for manual activities
- › 100% accuracy rate

ACL Digital is a design-led Digital Experience, Product Innovation, Engineering and Enterprise IT offerings leader. From strategy, to design, implementation and management we help accelerate innovation and transform businesses. ACL Digital is a part of ALTEN group, a leader in technology consulting and engineering services.
