

DIGITAL TRANSFORMATION TO ACHIEVE ACADEMIC EXCELLENCE

CAMU - STUDENT SUCCESS BY DESIGN

How can Colleges and Universities prioritize student success? They are still grappling with big questions about how to define, measure, and structure student's success while keeping the student at the center. Colleges and Universities want to focus on improvements in retention and completion to ensure long- term career aspirations of the students.

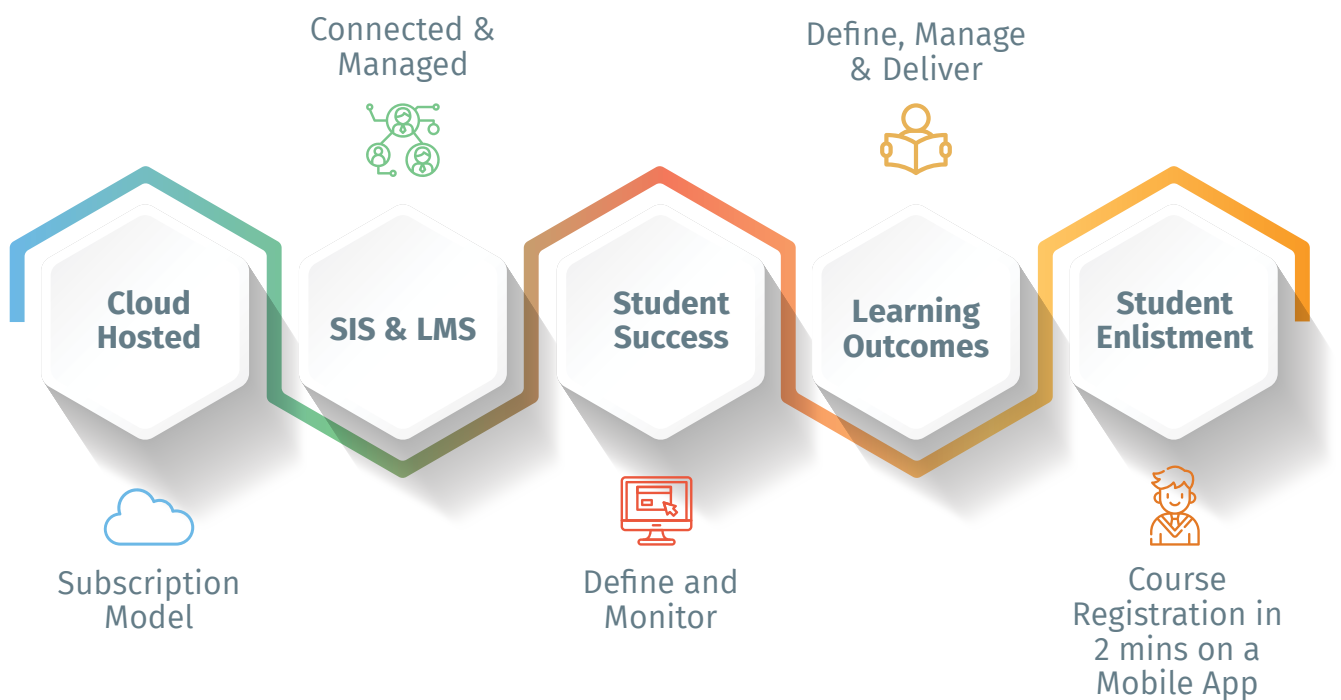

Camu offers a powerful technology platform for transforming the student learning experience. It can help affirm and advance the relationships between educators and students, reinvent approaches to learning and collaboration, shrink accessibility gaps and adapt learning experiences to meet the needs of all learners. Camu breaks boundaries between student administration and learning management to proactively deliver student success and learning outcomes.

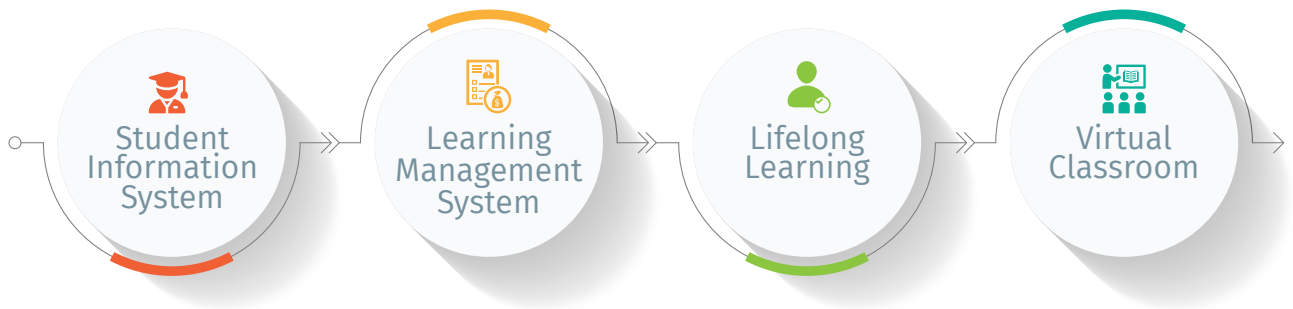

Camu offers an integrated Student Information System and Learning Management System to transform the student learning experience.

THE ESSENCE OF CAMU

CAMU SOLUTIONS:

ACADEMIC CONCEPTS:

CAMU FUNCTIONAL OVERVIEW

-----	--------------------	------------------------	-----------------	----------------	------------------	------------------	-----------------------

CAMU VIRTUAL CLASSROOM

Camu with a strong foundation in curricular planning and class scheduling has enabled Digital learning in a seamless manner for 400 Institutions across the globe.

Flipping between Virtual Online classes and campus-based classes becomes easy with Camu. During uncertain times the classes can seamlessly move online in a single click. The students and teachers can view the schedule online and launch an online session to conduct the class. When the learning is moved back to the campus everything continues as per the regular schedule.

Just one seamless platform to actively engage, share ideas, enable personalised learning and improve the overall learning experience.
